Form PCT/ISA/210 (continuation of second sheet) (July 1998)

International application No.
PCT/JP03/09244

Box I	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
	emational search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. [X	Claims Nos.: 7
-	because they relate to subject matter not required to be searched by this Authority, namely:
The the	invention as set forth in claim 7 pertains to method for treatment of human body by therapy.
2. 177	Claims Nos.:
	because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3.	Claims Nos.:
ب	because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This Inte	emational Searching Authority found multiple inventions in this international application, as follows:
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2.	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3.	As only some of the required additional search fees were timely paid by the applicant, this international search report covers
	only those claims for which fees were paid, specifically claims Nos.:
4.	No required additional search fees were timely paid by the applicant. Consequently, this international search report is
	restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
	·
Remark (on Protest The additional search fees were accompanied by the applicant's protest.
	No protest accompanied the payment of additional search fees.
